RHCT- Spoke with CW, Barry Richard, regarding Leigh's status, he was very concerned about her lethargy and flat affect this afternoon. I paged Karen Mulitalo, PA at So. Main Clinic and she called me back, in discussing this child's status, Karen stated she would be unable to assess Leigh this afternoon but would see her tomorrow morning at So. Main Clinic. We discussed a drug screen, which Karen will do tomorrow but will not have the results back for a day. Karen stated she would call the nurse at So. Main Clinic to set an appt. time. I called CBH and LM for Suzanne Williams that Leigh had an initial exam appt. tomorrow at So. Main and asked her to call the clinic for the specific time. Completed health data report for CBH and faxed paperwork and medicaid card to CBH. Karen Mulitalo will call me tomorrow a.m. after the exam for let me know her findings, and I will then discuss with the CW. (Faust, Barbara S 03Oct00)
