

Not All Terrorists Wear Turbans

Osama Bin Laden
International Terrorist

Howard Stephenson
Your state senator

Uses his position as leader of the al-Qaida network to send operatives to infiltrate and attack America.

Trained his operatives to use falsified identification to assist them in carrying out attacks on America.

Uses his position as president of the Utah Taxpayers Association to cover his contributing role in weakening America. This includes:

- Increasing your vulnerability to terrorists and criminals who can evade the American justice system; and
- Supporting the use of your tax dollars to entice illegal aliens to come to Utah.

Evidence: Voted this session for Senate Bill 227, which grants special driver's licenses to illegal aliens. Under the pretense of reform, this legislation continues to allow al-Qaida operatives to obtain Utah driver's licenses and roam freely in our communities. According to a recent legislative audit, over 58,000 illegal aliens have already obtained Utah driver's licenses, and hundreds have registered to vote.

Evidence: In 2002, he was the senate sponsor of House Bill 144, which allows children of illegal aliens to receive lifetime “resident tuition” status. This status grants them in-state tuition rates at Utah colleges and universities—all at taxpayer expense.

Note: An American citizen who moves away from Utah for a short time loses his resident status, whereas illegal aliens retain their special status forever, no matter where they reside or what taxes they do or do not pay.
