appointment with Dr. Harris because he would return her calls.

*Friday  
needed to  
make*

Lisa then ask me who was in the meeting on Friday, Ivy or Kathryn...I told her it was Ivy. She insisted I give her a copy of notes. I explained to her we had met together to review her Service Plan and what she needed to do so we could extend her visitation with the children and possibly place them on a trial-home-visit. She told me she had done everything in the Service Plan and I should place her children home with her right now. *excuse it only one to school children home where a life*

Staffed current information with Dan Reid. (Harris, Linda 15Oct01)

**15Aug01 08:00 60 minutes Final Transportation Chapoose, Vicky**  
**Policies:**

p/u Jordan from Respite Home and transported him to Monte Vista Elementary School before it started at 8:25am

On the way to the school Jordan stated he lost his yellow folder and contained his art assignment and he didn't get it done for today's class and he would have to stay in for recess since he didn't get it done. Called the receptionist-Pat and asked her to look in the visiting room for the folder - nothing. Nothing in the Green Achiever.

Went into the school w/Jordan and he checked his desk and it was there, Jordan was still upset that he didn't get his homework done and would have to stay in for recess - told Jordan to explain it to his teacher what happened

then maybe try to get it done before. Called Respite Home, spoke and she stated she just got home from

her graveyard shift and she didn't know about the notebook but had called her in the

middle of the night and told her that Jordan had a low blood sugar reaction in the middle of the night.

Jordan was checked and his level was at 50 and he was given rootbeer and a piece of jerky for a snack, then his level was checked again and it went up to 200. did say she was going to call the school

and tell them what happened w/Jordan and he maybe a little sleepy/slow today due to this reaction. paperwork will be faxed over.

Relayed this info to supervisor-Dan on what happened to Jordan in the night.

**Policies:**

p/u from Respite Home, transported Jordan to Monte Vista Elementary. Jordan had a better night and was feeling better today. Jordan stated he had his snacks in his backpack and he did his homework. No problems

he stated w/his yellow notebook and he was able to get his homework done so he wouldn't have to be left out

of his recess on 8/15. Respite home will take care of the transports the remainder of the time Jordan is w/them.

Also, Jordan stated he was catching a cold and his throat was getting sore - he stated that the Respite family knows about his cold. He stated if he doesn't feel too good tomorrow that he might ask to stay home from school

tomorrow. (Chapoose, Vicky 16Aug01)
