

## Activities For Case

**Case Name: Bierly, Jordan B****Case ID: 950575****11OCT00 12:20 30 Minutes Finalized Recording****Richards, Barry**

correspondence from Dr. Harding to AG's office---yesterday, with copy to this CW. The preponderance of evidence speaks strongly to the need for the State's maintenance of custody of PV and sibling-sister until a safety-plan can be developed to reduce the risk of the PV's diabetic condition being compromised.

CW attended Shealter Hearing this a.m. Judge Johanson ruled in for DCFS; maintaining PV and sibling-sister in States Custody---shelter care. Judge also requiring: 1) a complete psych eval. for MO; 2) a safety plan being developed; 3) supervised visits of PV by MO-Leesa, and 4) MO-Leesa to be in contact with ORS.

PSS-Foster Care Worker (Kelly ?) has been assigned to the case (via Dan Reid) and will assume responsibility for case management of case from this point on.

CW has visited briefly with MO-Leesa at completion of court-proceedings (at her request) and provided a copy of the book, SUDDEN TRAUMA! When Life Will Never Be The Same---as requested by MO-Leesa. CW has introduced MO-Leesa to Foster Case Worker.

Case will be closed as substantiated---per reasons articulated in this Activity Report---yesterday. (Richards, Barry 11Oct00)
