

Neighbors... Happy Christmas!

Please enjoy and cherish this day and make it special. Laugh and play with your children and grandchildren and help them break in their new toys. Please call your older children and tell them you love them.

This wish is presented to you today by a group of innocent parents. We no longer have our children. They were stolen from us by the State of Utah. We represent two parent families, maligned fathers, and battered women. Some of our children have not spent Christmas with us for many years. Many of our children have been abused, and some have died, in foster care.

After your celebration, please help us spend Christmas 2004 with our children! What a gift that would be! We implore you to call your senator and neighbor, Patrice Arent, at 272-1956. She refuses to take meaningful action to help innocent families get their children back, or to restore the rights of all innocent parents — including the right to be tried by a jury of our own peers.

We plead for your mercy and assistance on our behalf. We are helpless without you. We sincerely hope that this nightmare ends for us — and NEVER happens to you or anyone you love.

Imagining that you will help our children will make this Christmas pass a little easier. Thank you.

Please call:

**Senator Patrice Arent at 272-1956
6381 Haven Brook Circle**
